PROFESSIONAL SUMMARY

Final-year **Electronics and Telecommunication Engineering** student with practical experience in **IoT and Embedded Systems**. Currently exploring **Machine Learning** and Python libraries. Seeking an entry-level or internship role to apply skills in real-world technology projects and contribute to impactful innovations.

SKILLS

Programming Languages: Python, SQL, C++, Embedded C

Tools and Platforms: JupyterLab, MySQL, Git, GitHub, Adafruit IO, Arduino IDE

Learning: Data Structures and Algorithms (C++), Machine Learning, NumPy, Pandas, Matplotlib

EDUCATION

P.E.S. Modern College of Engineering, Pune Aug 2023 – Present
Bachelor of Engineering in Electronics and Telecommunication Engineering (**SGPA: 8.26**)

Government Polytechnic, Pune Jul 2020 – Jul 2023
Diploma in Electronics and Telecommunication Engineering (**84.39%**)

V.S. Satav High School, Wagholi Mar 2020
SSC Board (**91.20%**)

PROJECTS

- **Attendify – IoT-Based Biometric Attendance System (Aug 2025 - Present):** Built an IoT biometric attendance device using **ESP32**, **R307 sensor**, and a rechargeable battery. Records time/date, syncs attendance data in real time, and provides a teacher dashboard with email and Excel features. Achieved **80% reduction** in manual attendance time.
- **Jarvis AI Virtual Assistant (2025):** Developed a Python-based voice assistant using **SpeechRecognition**, **gTTS**, and **Google Gemini AI**. Enabled context-aware voice responses and task automation (e.g., browsing, music playback, data retrieval), improving task completion speed by **70%**. [Link](#)
- **IoT Cable Fault Detection (2025):** Designed an underground cable fault detection system using **Arduino UNO**, **ESP8266**, and **Adafruit IO**. Achieved **±1 km accuracy** and reduced fault isolation time by **60%**. [Link](#)
- **Smart Door Lock (2024):** Created an IoT-based door lock with **ESP32**, camera module, two-way audio, and mobile app control for 24/7 remote access.

INTERNSHIPS

Industrial Automation Intern Jul 2022 – Sept 2022
Pretech Automation Pvt. Ltd., Pune
Supported PLC wiring, panel assembly, and testing processes in industrial automation systems.

ACCOMPLISHMENTS AND EXTRACURRICULAR ACTIVITIES

- **Head, IoT Hackathon 2023-24** – Mpulse Xtronica, PESMCOE. Led event planning, logistics, and evaluation for 50+ participants.
- **Finalist** – CircuitVista 2K25 (Project Competition)
- **Participant** – IoT Hackathon 2023
- **Participant** – Soft Skills Program by Cognitive Exchange
